## TOWN TALK.

Additional local will be found on the first page.  
 Wm. McArthur left via the overland route for Chicago last Monday.  
 Nelson, Strohn & Co are building an addition their mill thirty feet long.  
 Some person or persons upon mischief intent took about a dozen gates from their hinges last Wednesday night.  
 A very pleasant dancing party was held at the Benton House last Wednesday evening. It was largely attended.  
 Attention is called to the advertisement of R. Patterson in this issue. To those wanting a fit out for lumbering a rare chance is offered.  
 Messrs. Patterson, Humphrey and Bell have had a crosswalk put across the street near the law offices of the last named gentlemen. It will be a great convenience to the public.  
 Business has assumed a lively appearance about Amiot's ship yard this week. He is making the repairs upon the schooner which came in here disabled last Saturday.  
 A few evenings since there was lost on Main street a white silk handkerchief with a light blue border. The finder will confer a favor by leaving it at the TRIBUNE office.  
 H. A. Blake has started a small mill for grinding coarse grain in the little building adjoining his shop. The power is taken from his machine shop. We trust the venture may be a paying one.  
 According to the instructions of the Council, at its last meeting, the Street Commissioner has put up a very substantial railing on the sidewalk over the ravine by C. R. Smith's residence, the dangerous condition of which was noticed last week.  
 McArthur, Smith & Co. have still a large gang of men employed upon their dock improvements. It is probable that they will build a warehouse this winter and be ready for next season's business. The Northern boats will probably run in here next season, as the completion of this dock is all that is necessary.

**The Inland Lake Survey.**  
 The survey of the inland navigation route ordered by the Board of Control, will be proceeded with at once. The local commissioner has secured the services of Mr. W. B. Stimpson, assistant engineer of the Grand Rapids and Indiana Railroad, who arrived in town last Thursday night, and will, as soon as his force can be properly organized, proceed at once to the ground and commence operations. The job is a very difficult one, and in some respects quite intricate, and the commissioner feels highly gratified that he was able in so short a time to secure the services of an engineer so well qualified as is Mr. Stimpson. It will be the endeavor of all connected with the work to have it in such a condition that a report can be made of it to the Board at the next meeting—the last Wednesday in this month, when it is hoped that the matter can be definitely settled.

**How to Avoid Danger.**  
 If ladies who see a team approaching as they are crossing the street will glance to see whether the driver observes them, and finding that he does, will walk along as if there was no danger whatever, they will be much more safe than they are, the way they usually manage such affairs. Many ladies get frightened on seeing a team near them, go ahead ahead a little, dodge back, glance about them with a look of extreme bewilderment, and then make a grand rush, as likely as not going in the direction they should not go, the driver of the team meanwhile reining his horses first to the right and then to the left, anxious to avoid inflicting injury, but unable to guess where the lady will jump to next.

**Lost.**  
 On Wednesday evening last, somewhere on Main street, a heavy gold band carrying pendant, with center ornament having a coral setting. A liberal reward will be paid the finder if left at the Tribune office.

## VILLAGE COUNCIL.

**A Harmonious but Unimportant Meeting Monday Night—Special Meeting Thursday Night.**  
 President Newton being absent, the meeting was called to order by the Recorder; and on motion, Trustee Kezar was called to the chair.  
 Roll call showed Trustees Cuney, Barber, Kezar, Stevenson, and Crumley present.  
 The minutes of the last meeting were read and approved.

**PETITIONS.**  
 Trustee Kezar presented a petition from S. Taylor and others, setting forth the necessity of a drain being constructed on either the north or south side of Division street to carry off a large amount of surplus water which constantly gathers on the lots back of Main street. The members of the council generally admitted the necessity of this drain, and referred the matter to the street committee, with instructions to procure a survey of the same, and proceed in the matter according to their judgment.

A petition from R. Patterson and others was received, asking that a sidewalk be constructed on the westerly side of Water street, commencing at the end walk at the Benton House, and continuing to First street.

**REPORTS OF COMMITTEES.**  
 Trustee Kezar, from the special committee appointed at the last meeting, to approve of Mr. Hoppock's bonds, reported that satisfactory bonds had been furnished and approved.

The dangerous condition of the sidewalk over the ravine by C. R. Smith's residence was brought up, and on motion of Trustee Barber, the Street Commissioner was instructed to construct a railing at the dangerous point.

Trustee Stevenson wanted to know if the County Treasurer had paid over the liquor taxes into the city treasury. On being informed in the negative, he hoped that some action be taken upon the matter. The village needed the money, and since the decision of the Supreme court, there could no longer be any excuse for retaining it. The Recorder said that the Village Treasurer had said he would go after it no more.

Trustee Crumley moved that the marshal be instructed to notify the County Treasurer to pay over the money at once according to law.

The Recorder stated that the marshal had furnished no bonds, and as it would soon be time for him to commence the collection of taxes, it would be necessary for him to furnish them.

After some discussion of the matter, Trustee Barber moved that the bonds be fixed at \$3,000, and that they be presented to the Council for approval, at a meeting of the Council to be held on the 15th of November. Adopted.

The Recorder stated that he had received a blank from the State Board of Health, with instructions to fill it out, which he had done to the best of his ability, and which, if acceptable to the Council—was the Local Board of Health—he would transmit it. The Council signified its satisfaction regarding the matter.

Trustee Barber thought that the report of the Street Commissioner was behind. It should be made in time to allow the non-resident tax to be placed upon the rolls. The commissioner had, he understood, desired more time, but he did not see how it could be granted, and get these taxes on the rolls before they go into the marshal's hands.

The commissioner was instructed to present his report to the Board at its next meeting—November 15th.

**ACCOUNTS.**  
 The following accounts were presented and allowed:  
 Geo. Robinson.....\$12.50  
 H. M. Aith..... 4.00  
 Wm. Mulvaugh..... 50  
 On motion the Council then adjourned until Monday evening, the 15th of November.

**SPECIAL MEETING.**  
 Pursuant to a call made by the president pro tem, Trustee Kezar, the Village Council met in special session on Thursday evening to take into consideration the propriety of purchasing some lamps for the purpose of lighting the streets. The meeting was called to order by the chairman, and roll call showed a quorum present.

It was stated that a portion of liquor-tax money had been paid into the Village Treasury, and that it was thought by some that it might be well to use a portion of it for purchasing street lamps. After a free exchange of opinions between the several Trustees a resolution for the purchase of fifteen street lamps was adopted, and the Recorder instructed to purchase them.

George Paquette presented a bill for \$31 for thirty-one days board of village prisoners.  
 Some of the Trustees thought that a dollar a day for board too much. A resolution was adopted fixing the board at \$5 per week for the village prisoners. The Sheriff's bill was then allowed at this rate.

A resolution was adopted fixing the fees of the Recorder at \$2 for each and every meeting.

The Recorder then submitted a bill for thirteen meetings at that rate was allowed.

The Sheriff was allowed \$3 for assistance rendered the Village Marshal in taking prisoners to jail.

The Marshal was ordered to make a seizure upon some property of Charles Bellant for the non-payment of highway tax.

The meeting then adjourned.

## A Signal Station.

That the requirements of the shipping interest demand a signal station at Cheboygan there is no doubt.  
 In 1872 an effort was made by some of our citizens to secure the location by the proper department of a signal station here, but without success; and so the matter was dropped. In a letter from the department to Roys J. Cram, of date August 10, 1872, it is stated that it was the intention of the department to establish a station at Mackinaw so soon as the telegraphic connection should be completed, which it was then thought would be in a very short time. Over three years have elapsed since that time, and no station has been established at Mackinaw, nor is there any telegraphic communication with that place. But should there be, we claim, and we think justly too, that this is a better point for the station than at Mackinaw. All vessels going either up or down are compelled to pass within sight of this place, and should the danger signal be up, they will want to lie at anchor out in the harbor of refuge, which the improvements which the government are making here will create.

Whereas, on the other hand, should the station be located at Mackinaw, the vessels going up would not see the danger signals until they have passed the best safety ground, and will have to come back, while those coming down would be in no better condition than they would be if the station was located at this point. Should the department investigate the convenience of the shipping interests, we have no doubt but that they would locate the station at this place, and beyond all question there should be one located here until such a time as telegraphic communication be established at Mackinaw. It would many times prevent vessels going out into the lakes just before a storm. Had such a station been here, it is probable that the Equinox would not have been lost. This is a matter of vital importance, and should be looked after by our citizens. We feel certain that if the case was properly presented to the authorities, that a station might be located here without much delay.

**Range Lights.**  
 It is absolutely necessary that something be done in regard to the range lights, upon which the steamers depend to make our harbor after night.

Last Monday night the St. Joe. arrived out, and one of the lights was down, and after waiting out an hour or so, she put into Duncan. The light was afterward put up and the boat came in. The trouble about the matter is, that what is everybody's business is nobody's business. Then the expense of the lamps and lights is considerable, and no one man feels like paying for them when the whole town is interested. A portion of the time the manager of Hurst's dock has kept up the lights, and a portion the men from one of the dredges.

Some definite action should be taken at once so that there will be no further trouble, such as occurred last Monday night. We have no doubt but that the village council would appropriate sufficient to furnish the oil and lamps, if if some arrangement could be made for properly lighting them. We understand that the village marshal has signified his willingness to assume the duty, should it be deemed necessary. The work should be done by the government, and doubtless will be before long if an effort should be made, but until then the village should take the matter in hand.
